Art Unit: 2872

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15, drawn to a mirror parking mechanism comprising a mirror mounting bracket, a mirror head, a detent, a spring, a gear wheel, a worm drive and a motor.

Group II, claim(s) 16-19, drawn to a mirror parking mechanism comprising a mirror mounting bracket, a mirror head, a detent, a spring, a roller, a ramped surface and a motor.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: it appears any special technical features of the above mentioned inventions relate to the separate features of the particular inventions, absent an allowable linking claim to the above mentioned inventions. As to the inventions listed as Groups I and II, Groups [I] and [II] are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, group I has separate utility such as a mirror parking mechanism without a ramped surface or coil spring and group II has separate utility such as a mirror parking mechanism without a gear wheel, a worm drive or a pair of arms. Therefore, it appears that if any special technical feature is present it must reside in the separate features of the subcombinations.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to R.D. Shafer whose telephone number is (703) 308-4813.
